

Cloud - The Future Of Human Intelligence!

CLOUD SOLUTIONS

Cloud is redefining the operations, service delivery, and business models of dynamic organizations across industry verticals. However, the vastly different motivations and goals of each company make their path to cloud-enablement very unique. Cloud engineering services, customized to suit specific requirements and IT environment, take center-stage in this context.

At GlobalEdge, we leverage our deep understanding of the software product development landscape to offer tailored Cloud-enablement services. We work with Independent Software Providers (ISVs) to co-create reliable, scalable, and cost-effective cloud-ready products. We also work with customers across industries to make a smooth transition of their businesses onto the cloud.

As one of the leading providers of IoT and Connectivity solutions, an important aspect of Cloud solutions from GlobalEdge is our capabilities to combine the power of virtualization, IoT and mobility with the Cloud. The result is a range of intelligent Cloud-enabled products that help shorten time-to-market.

Services:

- Product Development for ISVs
 - Product Design and Development
 - Cloud Application Development
 - Data Management and Analytics
 - Professional Services
 - DevOps

- Product Enablement
 - SaaS / PaaS
 - Device Management
 - Cloud Integration and Migration
 - Public / Private / Hybrid Cloud

- Network-enabled Cloud
 - SDN / NFV
 - Virtualization
- IoT Application Development and Integration
 - API Development and Integration
 - Native/Hybrid Mobile Application Development
- Remote diagnostics and telemetry

Industries:

- **Automotive**
 - Real-time vehicle performance tracking and diagnostics
 - Flashing / reprogramming
 - Internet radio / AirPlay
 - Navigation and event / location capture
- **Industrial Automation**
 - Asset Management
 - Remote Monitoring and Diagnostics
 - Visualization and Configuration
- **Telecom**
 - C-RAN
 - Virtualization of EPC / IMS Core Solutions
 - OpenFlow Switch / Controller
 - Cloud Integration of IoT Devices
- **Consumer Electronics**
 - SDN / NFV
 - vCPE - Routers, Access Points, Residential Gateways
 - EMS for Remote Monitoring and Management of CPE Devices

About GlobalEdge

GlobalEdge is a product engineering company creating intelligence in things for a new connected world. With a vision to be a leading technology company, transforming the embedded world with innovative solutions and services, we are a partner from Innovation to Implementation. We are focused on designing the behavior of devices using reusable solutions and components and addressing business challenges in Automotive, Consumer Electronics, Industrial Automation and Semiconductor industries through a combination of platform, wireless, connectivity, and cloud solutions. With a wide range of expertise in delivering solutions from 'Chip-to-Cloud', in a world of connected things, we also deliver solutions that are specific to the Internet of Things (IoT). Our in-depth experience in platform play, multimedia, connectivity, and cloud solutions makes us a perfect fit as an IoT partner to global enterprises.
